The Students' Christian Union, an association of Students and Professors, for the promotion of their spiritual welfare and the cause of Christ in the College, holds regular monthly meetings on the first Sabbath of each month. NORMAL COURSE.

The special attention of those who desire to qualify themselves for teaching in the public schools and who cannot take a more extended course of preparation, is invited to this course. Every student will be thoroughly drilled in the best methods of teaching the branches required in the public schools of Illinois and Iowa. A certificate of attainments will be awarded for the satisfactory completion of this course.

The studies are the same as in the Preparatory Course, except in the Senior year, instead of Latin, Natural Philosophy is studied the first term, Physiology the second term and Natural History or Astronomy the third term, and Theory and Practice of Teaching.

BUSINESS COURSE.

This course affords facilities for the study of the English Branches, Business Arithmetic, Commercial Law, and Bookkeeping.

CONTROL, ETC.

The Academical Department has been reorganized with the intention that the facilities afforded shall be second to none in any similar institution. It is under the control of the Faculty and under the immediate supervision of a Principal.

ADMISSION.

No examination will be required for admission to the Junior Class, but promotion for advanced standing can be secured only by passing rigorous examinations. Applicants for admission should be at least thirteen years of age, and of such maturity as to enable them to study at home. No person whose influence is likely to be injurious to good order, will be admitted.

ATTENDANCE.

To secure the full advantages of the course, the students should enter at the beginning of the Academical year and remain until its close. Students should be present at every recitation and every roll call. Tardiness is a ground for censure, and absence without permission or reasonable excuse is a ground for dismissal.

REPORTS.

A report of the work and deportment of each pupil will be made, at the end of each month, to his parents or guardian. Special reports will be made oftener at the request of a parent or guardian.

MONMOUTH COLLEGE.

PRIVILEGES.

The students of the Academy are entitled to the same privileges enjoyed by the Collegiate students, in regard to Experiments, Lectures Library, etc.

An Honorary Course of Reading in American History and Literature has been adopted for students in the Academy. Any student who has an average monthly grade of 8.5 in each study, may pursue this course.

LITERARY SOCIETY.

The Ciceronian Literary Society gives the students of the Academy an opportunity for literary improvement outside of their regular work.

TEXT BOOKS.

Allen and Greenough's Latin Grammar, and Cæsar: Greene's English Grammar: Higginson's U. S. History: Swinton's Outlines of the World's History: Swinton's Word Analysis: Ray's Elementary Algebra: Goff's Complete Arithmetic: Appleton's Reader.

MUSIC DEPARTMENT.

A regular course of instruction has been arranged in this Department, which can be taken at the option of the student, instead of German in the Scientific Course.

The Department of Music, under the charge of Prof. S. H. PRICE, affords facilities for the study of this subject seldom found in an institution of this character.

A regular course of instruction will be given on Piano and Organ, and an excellent opportunity afforded for the study of the classic authors. Anyone wishing to study harmony and counterpoint can be accommodated. For Instrumental Music the charge for a course of twenty lessons is \$16.

Special Regulations.

I. The requirements for admission to the several classes are fully stated in the outline of the different courses. Candidates for advanced standing must furnish satisfactory evidence of proficiency in all the previous studies of the course they propose to take. No student of known immoral character, or whose influence is likely to be injurious to good order will be admitted. Applicants for admission, unknown to any member of the Faculty, should bring certificates of good moral character.

II. The Statutes of the College, Chapter II, Section 3, provide that "No student shall be permitted to enter at a later period of the course, than the commencement of the first session of the Senior year." The spirit of this law, in the judgment of the Faculty, requires at least one full year's attendance of a student on the exercises of the College in order to graduation. *Under no circumstances* will this rule, as thus interpreted, be relaxed while the above statute remains unrepealed.

III. The Senate has adopted the following as an additional chapter to the College Statutes:

"**SECTION 1.** All persons matriculating shall be regarded as students, and on payment of the required fees shall be entitled to all the privileges of the College.

SEC. 2. Connection with the college is terminated by graduation or dismissal, honorable or otherwise.

SEC. 3. The privileges of the student shall be suspended in all cases of failure to pay the required fee and attend on instruction: *provided*, however, that the following privileges, namely, that of examination with his classes, active membership in the societies, representing societies and classes on public performances, and the use of the Library and Reading Room, may be granted to students temporarily absent, for a period not exceeding one year, on written permission from the Faculty, and the payment of two dollars per term.

SEC. 4. All persons enjoying any of the above privileges shall be subject to College discipline, the same as if in actual attendance."

The Faculty judge the attendance of a student on the exercises of the College at least three-fifths of any year as necessary to complete satisfactorily the work of the year, and, therefore, will not, under ordinary circumstances, grant leave of absence, with the privilege of examination without recitation, during any one year, exceeding four months. Any one being examined without having recited with the class, will be required to pass an examination doubly extensive. The Faculty are unwilling to grant leave of absence to any Senior. Seniors should be in attendance the entire year.

IV. There are during the year public exhibitions of the College classes as follows: Of the Junior class in May, and of the Sophomore in November. These exhibitions are held on such evenings and in such places as the Faculty may appoint.

MONMOUTH COLLEGE.

V. At the meeting of the Senate in June, 1874, the following was added to the Statutes of the College as Section 4 of Chapter xiii: "It shall be unlawful for any student of the College hereafter to become a member of any secret College fraternity, or to connect with any chapter of any such fraternity, and also for any active member of such fraternity to be admitted as a student of this college."

VI. In regard to marking, grading and examinations, the following principles have been adopted:

1. Each recitation is marked on a scale of 10; ordinary excellence being indicated by 9, extraordinary by 10; these marks are averaged in each subject, monthly, and entered on the Monthly Record. The actual attendance is marked on the same scale, and entered on the same record. To be marked 10 in attendance, on the Monthly Record, the student must have been actually present at every roll-call of his class during the month.

2. Each class is examined on each subject as soon as completed, the examination of each student is marked on the same scale and entered on the Annual Record. To pass, the student must answer correctly at least 70 per cent. of all questions asked him. No student is credited with any subject until he has been examined and passed in it. The average of the marks received for all the recitations and for the examination, in any subject, determines the student's grade in that subject.

3. The Grand Average of the marks received in all the subjects in which the student has been examined and passed with his class during the year, and of the marks for attendance during the same time, determines the student's rank in his class. This is entered on the Annual Record.

4. No student is promoted from a lower class to a higher, whose deficiencies exceed what may be made up in one year by a single recitation daily.

5. The Salutatory and the Valedictory, on Commencement Day, are delivered, the former by the Senior Scientific, the latter by the Senior Classical who ranks highest.

6. In order to secure thoroughness in the elementary subjects, each College class will be required to pass a special examination, after a review conducted by a Professor, in Geography, Arithmetic, and English Grammar. In addition to the above, Classical students, in Latin and Greek Grammar. To pass in these subjects the students must make an examination grade of 8. The terms during which these reviews and examinations will take place are indicated in the "Course of Study."

VII. Reports are sent to parents or guardians at the close of each term. The President should be notified of every case where report fails to come within ten days after the close of the term.

VIII. The statutes expressly forbid the students to use intoxicating drinks as a beverage, or play cards, to frequent drinking, gambling, or billiard saloons, or improper places of resort of any kind. The Faculty judge places of amusement, commonly called "balls" and "dances," to be improper places of resort for students.

IX. Students are requested to notify the President before changing their place of boarding.

X. Ladies and gentlemen are admitted to all the privileges of the College on the same footing.

Additional Information.

LIBRARY.

The College Library contains about two thousand volumes. *The County Library and Reading Room is open to all the Students Free of Charge in the Room.* This is one of the best established, selected and conducted Libraries in the West. It contains between eleven and twelve thousand volumes. Also, eight hundred volumes are added yearly. The Reading Room is well furnished with papers and periodicals.

APPARATUS.

An extensive Philosophical and Chemical Apparatus affords the means for a satisfactory illustration of the most important principles in the various departments of Astronomy, Natural Philosophy and Chemistry; and opportunity is furnished for the students in Chemistry in Laboratory practice. Important additions have recently been made to the Apparatus; one of Joseph Zentmayer's Histological Microscopes with accessories has been procured; and the College has imported through J. W. Queen & Co., of Philadelphia, a fine Toepler-Holtz Electrical Machine.

CABINET.

The College Cabinet contains a large assortment of Coins, Geological Specimens and other articles of interest, collected by Dr. Barnett in Palestine and Egypt; a Geological collection donated by the State, a valuable assortment of minerals presented by Rev. T. D. Davis, of Camp Point; a large variety of Corals; a valuable collection of Chinese Curiosities, the gift of Rev. J. C. Nevin, of California; and a cast of the famous Tanis Stone presented by Rev. Dr. Lansing, of Cario, Egypt; and additions are being made continually.

LITERARY SOCIETIES.

There are four Literary Societies in College—the *Philadelphian*, *Eccritean*, *Amateurs des Belles Lettres*, and the *Aletheorian*, and one in the Academy—the *Ciceronian*. In connection with these, students enjoy all the advantages which such societies are designed to furnish.

GOVERNMENT.

It is the aim of the Faculty to secure good order and diligence in study by force of moral and religious principles, rather than by direct
